**We pride ourselves on the very best musicianship and stunning vocals**

---

*Now that the dust has finally settled after our wedding, we wanted to take a minute to say thank you for everything you did for us. The music over dinner was the perfect accompaniment to our wedding breakfast, the vocals were stunning and the band's up tempo sets were a big success with our guests who were up dancing all evening. Many of our guests commented on the professionalism of the bands sound and vocals. We would happily recommend you in the future '*

*A belated thank you for the stunning night you gave us at our wedding. I never realized that my wife was such a rock star. We had a ball and our guests loved it too '*

## The band

You are booking some of the most sort after session players in the UK that form the Pussycats. Have complete confidence in musicianship with no question of presentation. Not only do the band sound great but they look great too. The standard 5 piece format of the band will never let you down with their upbeat feel or book the extended 7 piece format including our glamorous boys on the brass.

## The music

Trust the band to pick the right music or pick it yourself. With no fixed repertoire the band perform a seemingly limitless number of tracks. You can select the mood, the style and even the songs or simply let us judge the moment and keep all your guests on the dance floor.

## DJ

We can arrange a trusted DJ to fill the gaps between sets or to save on cost we carry an ipod packed with party classics. If booking your own DJ we are happy to share use of our sound system, again saving you in costs.
